STANDARD PROCESS

In our facilities we have two mixers, in which the ingredients are mixed, with a laboratory certified in GMPs processes and qualified personnel. In the standard process, up to 30 ingredients can be mixed, 170 micron sieving and basic internal analysis.

- ✓ GMP Process
- ✓ 710 micron Sieving
- ✓ Ingredients provided by the customer with particle size <710 µm
- ✓ Blend up to 30 ingredients
- ✓ Basic internal analysis (Aspect, Loss on Drying, Ingredients, Composition, Total Plate Count, Yeast & Molds, E. Coli and Salmonella)
- ✓ 25 Kg. in double polyethylene bag in cardboard drums
- ✓ Lead time < 1 month from receipt of ingredients
- ✓ 2 batch sizes, <100 Kg (with MOQ 50 Kg) and >150 Kg.

EXTRAS THAT CAN BE ADDED AT CUSTOMER REQUEST

Depending on the mixer, two batch sizes can be manufactured, <100 kg and >150 kg, always delivered in 25 kg quantities, in double polyethylene bags in cardboard drums. Delivery time is one month from receipt of ingredients.

- ✓ Different sieving than 710 µm.
- ✓ Different analysis to the basic
- ✓ Requires milling
- ✓ We can propose the specific ingredients

As a group of companies with a strong **presence in the US, Europe, and Asia**, we are uniquely positioned to serve as a global leader in the nutraceutical industry. We are dedicated to improving the lives of people worldwide through branded, functional ingredients and a commitment to excellence in all that we do.

The combination formulas contain multiple ingredients that can act together to support an overall health function or related health functions.
