

The Future of Metabolic Wellness

SUANNUTRA Clinically Proven Prebiotic Fibre Blends

SUANNUTRA introduces a new generation of science-based prebiotic blends at Vitafoods Europe 2025. These precision-formulated fibres meet the market's rising demand for **gut and metabolic health innovation**.

Clinically **proven**.

Purposefully **designed**.

Ready to reformulate **the future of wellness**.

SUANNUTRA

As part of its ongoing mission to deliver a growing portfolio of science-backed ingredients supported by deep market insights, SUANNUTRA is proud to unveil a new line of science-endorsed prebiotic fibre blends. This launch will be introduced exclusively at Vitafoods Europe 2025. Designed in collaboration with a European scientific partner, these advanced blends respond to the growing global demand for next-generation digestive and metabolic health solutions.

About SUANNUTRA

SUANNUTRA is a global leader in nutraceutical ingredients, offering a growing portfolio of scientifically backed, clinically proven **branded and functional ingredients**. We operate worldwide through **Monteloeder (Global), Gonmisol (Europe), and Suannutra USA**, with a combined 125 years of experience. **We proudly serve 1,500 customers in 60 countries**, upholding our commitment to **quality, innovation, and trusted leadership** in the nutraceutical market.

New Product Line: Clinically proven Prebiotic Fibre Blends

These new blends are the result of years of scientific development and clinical validation. Unlike generic fibres that may lack clinical backing or cause digestive discomfort, SUANNUTRA's prebiotic formulations are built around soluble, fermentable fibres with demonstrated effects on microbiome modulation and short-chain fatty acid (SCFA) production, potent compounds that fortify the gut lining and deliver benefits throughout the body.⁽¹⁾

Our prebiotic line of products is clean-label, free of gluten, GMOs and synthetic additives.

Each blend targets a specific health objective such as metabolic health, digestive balance, or immune function. In addition to these ready-to-market formulas, SUANNUTRA also offers tailored blend development, designed in collaboration with customers to meet specific health targets or formulation requirements.

Unique Value Proposition

In a market saturated with generic fibre ingredients, SUANNUTRA's new line stands out for several reasons:

- Clinically proven:** Supported by three human studies and consumer trials.⁽²⁾⁽³⁾⁽⁴⁾
- Gut-friendly:** Designed to minimise discomfort and bloating, with low FODMAP options.
- Targeted efficacy:** Each blend is formulated for a specific health goal (as our flagship Metabolic Regulator for metabolic support).
- Functional innovation:** Proven ability to increase SCFA levels, a key marker of gut and systemic health.
- Proprietary FDA health claim:** "Contributes to healthy blood sugar control".

Who loves this product?

- | | |
|------------------------------|----------------------------|
| Unbalanced cholesterol level | Weight management |
| Pre-diabetes | Athletes |
| Menopause | Pregnancy/Postnatal |
| Perimenopause | High-stress office workers |

Health Claims

- Feel fuller longer and regulate cravings
- Lower cholesterol levels
- Improve bowel regularity
- Reduce blood sugar levels

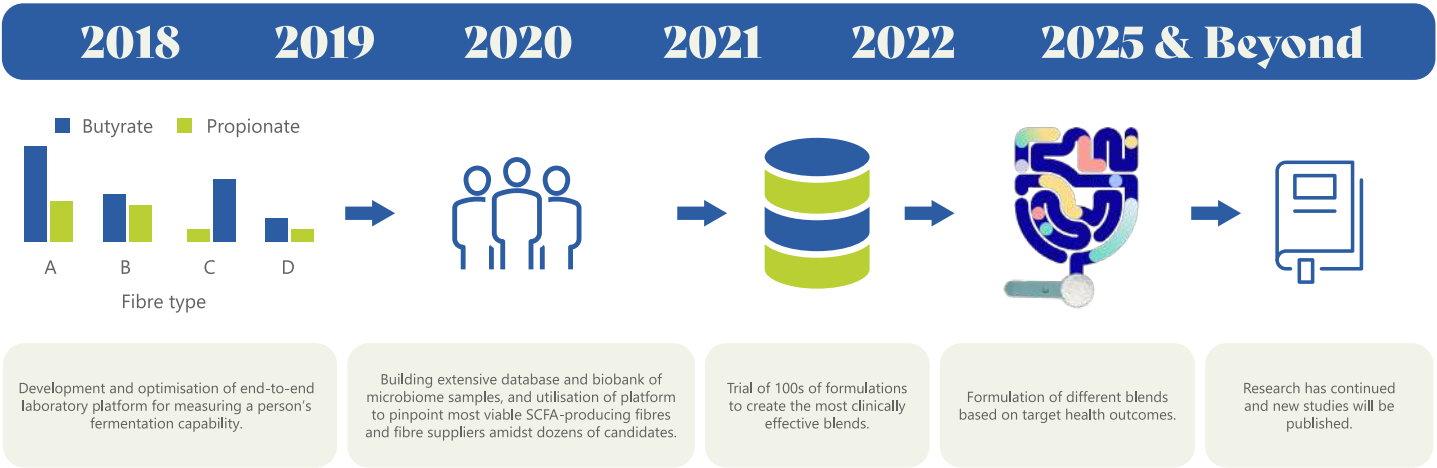

Metabolic Booster

All rounder. For metabolic, heart and digestive health.

Scientific Evidence

The metabolic health blend has undergone rigorous clinical research, including placebo-controlled trials demonstrating statistically significant improvements in insulin sensitivity and HbA1c levels. Real-world CGM (Continuous Glucose Monitoring) data has shown a measurable reduction in postprandial glucose spikes. These findings support the blend's ability to contribute to healthy blood sugar control, positioning it as a credible solution for addressing metabolic syndrome and prediabetes.

Dosage, Applications and Audience

Daily dosages range from **from 5 to 20 g day (1-4 daily scoops)**. They are ideal for health-conscious consumers managing **metabolic conditions, digestive issues, immune resilience, or pursuing overall wellness**.
